

OUR VISION

All children with special needs will have every opportunity to pursue his or her goals, realize his dreams and reach his full potential. Every parent or caregiver of those children will be provided with information, resources and encouragement in order to best support his or her child.

OUR MISSION

To provide traditional and innovative therapies and recreational opportunities for children with special needs in an environment that is family-friendly, to include resources and education for the parents/caregivers.

Dear Friends:

I must admit I'm a little emotional when thinking back about the history of The Therapy Place. People often ask me if I ever thought it would turn out like this. While I did expect and it was our goal to fill a void in the midlands for innovative programs, I had no idea how MANY children or the even larger effect of bringing the special needs community together, families who share their most personal and vulnerable stories with us and each other.

I thank God for helping us find such talented and caring staff and for keeping the budget sound despite the many challenges along the way. I hope that you feel as proud as we are about the progress made and the impact of your involvement, be it time, dollars and/or prayers! We are so appreciative of it all!

We started with 11 children in a summer camp at Trinity Episcopal Church in 2009, moved to our current building in 2010 and started fully as a therapy and preschool center in 2011. As of the time of this letter, we have served 518 children in our facility, many of whom have been with us the entire five years!

This 2015-16 annual report commemorates our 5-year anniversary -- celebrating all of the many families who call The Therapy Place their second home and the many children we have watched achieve first milestones. We hope you enjoy learning more about the families we serve and the impact of your gifts.

Our next steps will have us adding on to our existing building and upgrading our outdoor facilities. Stay tuned for fundraising opportunities and other announcements.

Thank you and God Bless!

Dawn M. Darby

Executive Director/Co-Founder

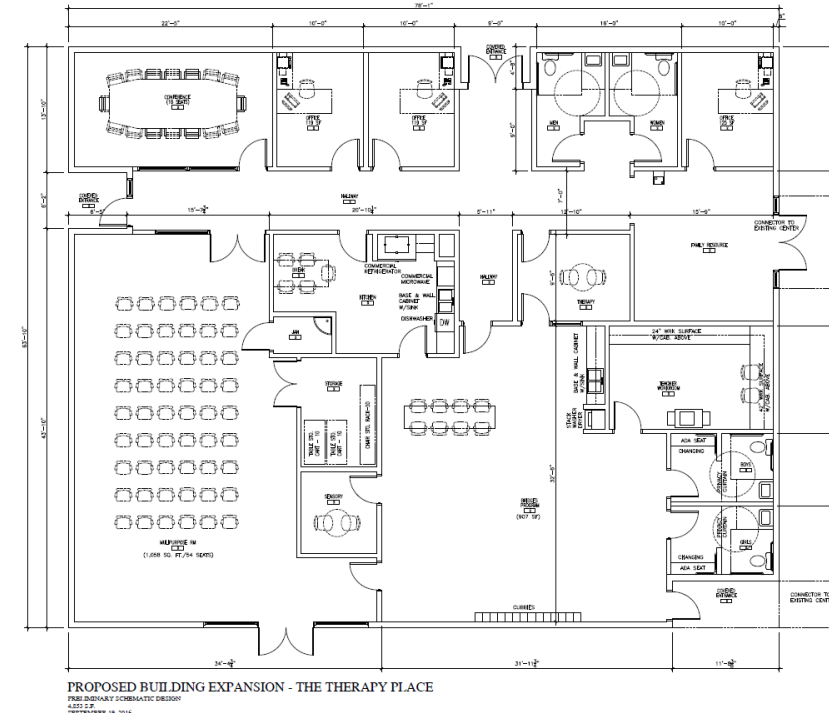

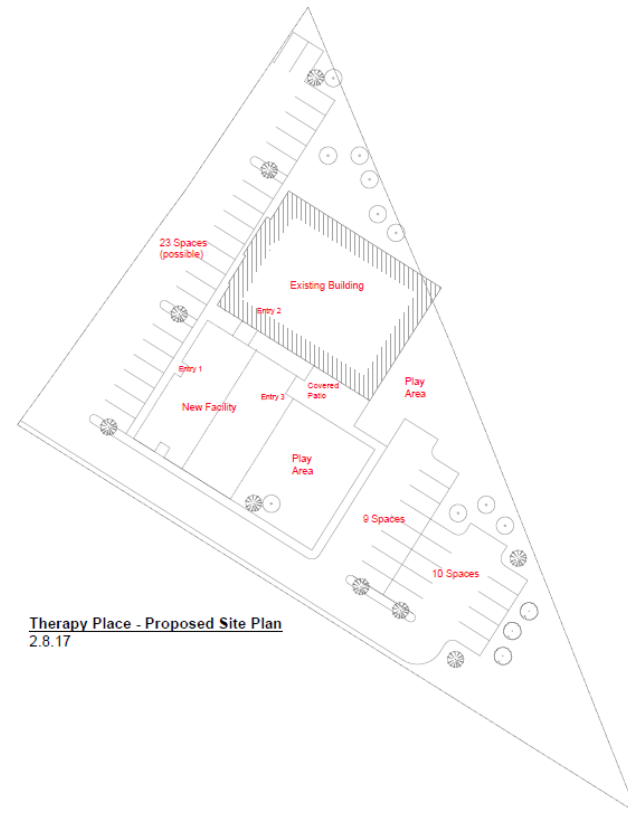

EXPANSION PLANS:

The future plans for The Therapy Place consist of a 4,500+ square foot building addition, enhanced inclusive playground, parking and grounds improvements.

The additional building space will allow for the following improvements to facilities:

- more suitable space for the Bridges preschool
- a large kitchen for therapy and preschool use
- a second large gym area and additional therapy rooms
- a large, multi-purpose room for family & recreational events, community activities and preschool presentations
- family restrooms located outside of the therapy vicinity
- family resource room with bookshelves and comfortable furniture
- conference room for family meetings, workshops for staff and families

To learn more about these plans or how you can help make this plan a reality, please visit our web site or call (803)787-3033.
